Cryptocurrency Assets

LMA Cryptocurrencies data covers more than 500 active cryptocurrencies. Cryptocurrencies were selected for inclusion based on listed market capitalization and/or technological significance. Coverage includes all cryptocurrencies present in the coinmarketcap.com ranking of the top 20 cryptocurrencies by market capitalization starting in November 2017. Coverage is updated monthly to include new entrants from the top 20 list. Once covered, cryptocurrencies remain in the feed until trading activity ceases.
